

A SCIENTIFIC AND HONEST MEDICINE FOR THE MILLIONS!

—Dr. KING'S—

ROYAL GERMETUER.

—Cures When all Else Fails.—

Thousands of men, women and children throughout the United States have used it, and are loud in their praise of it. They were afflicted with many diseases, some considered incurable. Some have been cured after suffering twenty-five and thirty years. It is a most wonderful advance in medical science. The chemicals composing this great blood remedy are endorsed by the leading scientists and chemists in Europe as the greatest antiseptic or blood poison neutralizers in the whole world. It is thought to be the only remedy that will successfully neutralize the poison from the bite of a mad-dog. It is death to microbes or disease germs in the human system. When these are destroyed, disease and pain take their flight. "Pain is but the prayer of the nerves for healthy blood." While the germ theory of disease is no new doctrine, it has failed to gain the credence of medical science to any great extent until recent years; and now that the THEORY is pushing to the front, the PRACTICE is lagging far behind. For the benefit of the public, we take the following from Peoples' Encyclopedia:

THE GERM THEORY OF DISEASE.

"It is a fact that the germ theory of disease did not originate, as some suppose, in recent years, although it has only lately attracted much attention. More than two hundred years ago the theory was brought forward by Father Kircher to account for the plague, and Linnaeus and Linnis and others endorsed it. It is a theory which ascribes disease to the introduction of living organisms into the human system. Such discoveries have been made in the last twenty years as have induced (forced) some of the best experimentalists to avow that it represents a view more clearly explanatory of many diseases than any other hypothesis. The germ theory is important, because connected with the propagation of disease. Diseases arise from the invasion of the system by microscopic forms, or germs, or microbes, from the air, or water, or food we receive, and with the property or power of rapid multiplication, and the spores or cells are wafted by the air from person to person. By a long series of observations and experiments in all departments of animal life, the presence of fungus growth in the blood and tissue have been found as a result of these spores. Typhoid fungus, small-pox fungus and cholera fungus have been discovered and identified by several eminent physicians, and the same may be said of Epizootic and other diseases."

"That the ubiquitous microbe is, indeed, a most important factor in all diseases, is no longer a question of doubt."

"Modern Surgery, under the leadership of Professor Lister, with his anti-microbe remedies, has built upon this foundation a magnificent superstructure, which will not crumble under the touch of destructive criticism, nor totter to its fall amid the upheavals of original search. And quite naturally has arisen the question, how far can the microbe-eradicating drugs, so easily of application and so powerful for good under the surgeon's hand, be made to do service in the internal treatment of microbic diseases. It cannot be said that the physician has been less industrious than the surgeon. But it cannot be denied that his efforts thus far have been a stupendous failure, and it is yet guess-work with them as to which is the best remedy with which to try to kill the dreadful microbe, or disease germs in the human system, and leave life in the patient. And while the surgeon now with his germicidal remedies quaffs the atmosphere of the delectable mountain, the physician is still wearily breathing the germ-laden air of the slough of despondency without a remedy."—British Medical Journal.

Fortunately for suffering humanity, Dr. C. R. KING, of Lampasas, Texas, has bridged the chasm and comes to the front to bless the world with the long-sought scientific remedy. ROYAL GERMETUER has fully met the test, and is being hailed with delight by the suffering and afflicted wherever it has been introduced.

WHAT PHYSICIANS SAY ABOUT ROYAL GERMETUER:

The following is taken from a lecture delivered by Professor Pendleton P. Price, at the American Medical College, October 18, 1889. Dr. Price is one of Cincinnati's most eminent physicians, and has found Germetuer to be a grand remedy:

"I have also recently had occasion to try another remedy that I have found great therapeutic value in, and one I think which is destined to enter largely into the favorable notice and consideration of both physician and layman. This remedy is the outgrowth of many years of study and research of an eminent physician and scientist. I have reference to Dr. King's Royal Germetuer. I made mention a few days ago of a case of a lady 23 years old with a severe bronchial irritation and intercostal neuralgia. I put her on the use of the Royal Germetuer, and in less than a week's time she called upon me and pronounced herself well and free from all pain and bronchial trouble. Again I used

Dr. King's Royal Germetuer in a very severe case of catarrhal inflammation of the rectum with most speedy and satisfactory results, and many other cases I might mention; but enough. Let me say to you, try it. I will from time to time mention such new preparations to you, that I have found from actual use to be good."—Cincinnati Enquirer, October 19, 1889.

TEMPLE, TEXAS, February 8, 1889. This certifies that I have been practicing medicine for thirty years, and have used all ordinary remedies known to the profession in all kinds of diseases, but must confess that during the last four months I have been using the Royal Germetuer in my general practice, and have found it to be by far the best medicine in all chronic and many acute diseases that has ever been discovered, and consider it the nearest a "panacea" of anything known to the people or profession.

W. G. SMITH, M. D.

LIBERTY, KANS., May 7, 1889.

This is to certify that I have been a great sufferer for years with rheumatism and kidney diseases. I procured a bottle of Royal Germetuer, have been taking it about ten days, and am entirely relieved of kidney trouble. So far as my rheumatism is concerned, I am gradually improving. I have been a practicing physician for thirty years, and am free to say that I believe Royal Germetuer to be a good medicine, and gladly recommend it to the afflicted everywhere.

Respectfully,
J. COLEMAN, M. D.

Modern surgery has fully established the value of anti-microbe remedies; but it was left to Dr. E. Thompson, of Nashville, about twenty years ago to come to the front with his great remedy as a microbe destroyer, with which he did actually cut short the duration

of typhoid fever, and had his valuable remedy been generally used as a preventive, it would have saved thousands from this and other germ-producing diseases. And while Dr. Thompson deserves the greatest praise as an advanced thinker, in discovering an agency for the abortion, and even prevention of the lower grades and most malignant types of fever, yet his valuable remedy was repugnant to many persons and revolting to their stomachs, and did not receive that general sanction which it so strictly merited. But a still greater light in medical science, Dr. R. C. King, of Lampasas, Texas, has outstripped all his predecessors by a new discovery which will gladden the hearts of thousands of suffering human beings with his Royal Germetuer, the greatest germ destroyer of this or any other age of the world. It has met with a larger sale within the short space of six months than any other remedy has done in five years from the time of its introduction,

and has already effected wonderful cures in every State in the Union.

L. D. COLLINS, M. D.
Zephyr, Texas, March, 1889.

ALEXANDRIA, LA., Aug. 13, 1889.

I am a regularly educated physician—have practiced medicine twenty years, had nasal catarrh almost during the whole time; tried almost every remedy known to the profession with no benefit. Royal Germetuer cured me in three weeks.

O. P. STARK.

HOTEL HAY, HOT SPRINGS, ARK.,
September 4th, 1889.

I have been taking Dr. King's Germetuer with great benefit. I have been quite a dyspeptic, suffering more or less from indigestion for a great many years. But now my digestion is nearly normal. The oppression at

my stomach (after eating) with which I have been annoyed so long, has nearly entirely disappeared. I find great benefit to my kidneys also, my back being greatly strengthened.

C. D. HAY.

Dr. C. D. Hay is the proprietor of the Hay Hotel, one of the leading hotels of Hot Springs, and many years ago was a prominent physician of Franklin, Tenn. After that he traveled and lectured extensively on medicine and electricity.

In testimony to the great value of Dr. King's wonderful Royal Germetuer, allow me to say the bottle I bought for my patient did its work well. She was prostrated with chronic vaginitis, with sympathetic affection of the kidneys. I believe it will effect a permanent cure, and I heartily recommend it.

Respectfully,
J. A. MORRIS, M. D.
Waco, Tex.

Germetuer cures by killing the living germ in the blood that produces all the Infectious and Contagious Diseases, such as Rheumatism, Catarrh, Nervous Debility and Weakness, Eczema, and all Skin and Blood Diseases, Dyspepsia, Bronchitis and all Venereal Diseases. It is a Specific for Female Disorders.

READ WHAT THE PEOPLE WHO HAVE TRIED IT SAY ABOUT IT:

REV. J. B. HAWTHORNE.

What He Says About King's Royal Germetuer.

ATLANTA, GA., January 2, 1890.

Six months ago, at the request of a friend who was interested in the sale of King's Royal Germetuer, I made a written statement of the benefits I had received from the use of that medicine. In that statement I expressed the belief that it would cure me entirely of Catarrh. Within the last two months I have received letters from every quarter of the nation, calling on me for further information in regard to my health. It has been impossible for me to write privately to each person who has made this request, and I am therefore under the necessity of making another public statement.

I am free from Catarrh: I believe that I could get a certificate to this effect from any

competent physician. I have used no medicine within the last six months except King's Royal Germetuer. My health is better than it has been in thirty years. I am in possession of information which warrants me in saying that the relief which I have experienced from the use of the medicine is not more certain and radical than that which it has brought to hundreds of persons in Georgia and other States. I feel it to be my duty to say, also, that the effects of this remedy upon my wife have been even more signal and wonderful. She has been almost an invalid from Nervous Headache, Neuralgia and Rheumatism. In a period of thirty years she has scarcely had a day's exemption from pain. She has been using Germetuer about two months. A more complete transformation I have never witnessed. Every symptom of disease has disappeared. She appears to be twenty years younger, and is as happy and playful as a healthy child. We have persuaded many of our friends to take the medicine, and the testimony of all of them is that it is a great remedy.

J. B. HAWTHORNE,
Pastor First Baptist Church.

Typhoid Fever.

DEAR SIR:—Your medicine, Royal Germetuer, did me much good, and if I had kept on using it I would be much better off now than I am, but the night after we got to Blowing Rock my wife was taken down with a severe fever, with every indication of its being typhoid. I called in the physician, but he did her no good, and on the third night, at midnight, I began giving her Germetuer every two hours. Soon she fell asleep, began perspiring and awoke next morning without any fever. The Germetuer did it. We started home that day, still using Germetuer, and Mrs. White improved all the way, and has had no fever since. Fraternally,
J. L. WHITE,
Pastor First Baptist Church.
Durham, N. C., June 6, 1889.

E. E. JORDAN, Agent King's Royal Germetuer.

RALEIGH, N. C., April 15, 1890. DEAR SIR:—I wish to say, my baby has been suffering all her life with bronchitis and indigestion and often she would be thrown into high fevers. I have tried the doctors,

and their efforts seemed to do her no good. A few weeks ago I bought a bottle of your medicine, Germetuer, and she was so much better from using it that I gave her another, and now she is well. She hasn't suffered any since I began giving her the Germetuer. My neighbors often remark, "IT HAS BROUGHT THE DEAD TO LIFE." I take pleasure in recommending Royal Germetuer to all. I think it one of the best medicines I ever used. Respectfully,
MRS. ANDREW J. KING,
Raleigh, N. C.

A. E. JORDAN, ESQ., Agent Royal Germetuer.

RALEIGH, N. C., February, 1890. DEAR SIR:—This is to certify that I have been a long sufferer from dyspepsia and nasal catarrh. I have used several remedies, and Royal Germetuer procured of you has done me more good than any other remedy I ever used. I feel satisfied that if I can continue using it I will be permanently cured. I take pleasure in recommending Royal Germetuer to all suffering from the above troubles. Yours truly,
ALVIN BETTS.

DR. KING, LAMPASAS, TEXAS.

DEAR SIR:—I have been a great sufferer from dyspepsia, at times, since 1861. I have used two bottles of Royal Germetuer, and can say that I have never found such a sure and speedy relief. I am persuaded that it will cure any case of dyspepsia.

Yours sincerely,
W. R. GWALTNEY,
Pastor Greensboro Baptist Church.

Dr. J. M. Oxford, Taylorsville, N. C., Says:

MY DEAR SIR:—The gallon of Royal Germetuer, procured for my wife, has been a great blessing. She had been suffering for months with Simulated Tubercular Consumption. She is now about well, after using but one gallon of the medicine. We think money will not weigh against such a remedy.

Yours sincerely,
DR. J. M. OXFORD,
Taylorsville, N. C., March 20, 1889.

REV. SAM P. JONES.

What He Says About King's Royal Germetuer.

"We are in receipt of a letter from the above world-renowned evangelist, from which was taken the following extract: "I returned from Tyler, Texas, on the 12th inst. I find my wife has been taking Royal Germetuer two weeks, to the GREAT UP-BUILDING OF HER PHYSICAL SYSTEM. She is now almost free from the distressing headaches with which she has been martyred for twenty years. Surely it has done wonders for her. I WISH EVERY POOR SUFFERING WIFE HAD ACCESS TO THAT MEDICINE."

A. E. JORDAN, Agent Royal Germetuer. RALEIGH, N. C., February 1, 1890. DEAR SIR:—I have been a sufferer from indigestion for twenty years and have tried a great many remedies, but have found nothing that has given me the relief that Dr. King's Royal Germetuer has. I cheerfully recommend it to all suffering of dyspepsia. JOHN R. TERRELL.

Germetuer Cures Dyspepsia, Indigestion Headache, Liver and Kidney Troubles, Asthma, Bronchitis, Coughs and Incipient Consumption, Rheumatism, Neuralgia and Paralysis, Catarrh, Bowel Trouble, Chills and Fever and Blood Poisoning.

It is a superlative tonic, harmless to a child, and always brings the roseate hue of health where before was the paleness of pain and disease. Buy it and try it. It will not disappoint you. For females and the aged and debilitated, who need building up, Germetuer will be found the Nonpareil of all remedies. Large numbers of valuable certificates in our possession, and constantly coming in, attest its merits and sound its praises. It is ABSOLUTELY one of the best remedies ever offered any people.

GERMETUER IS MANUFACTURED BY THE ATLANTIC GERMETUER COMPANY, OF ATLANTA, GEORGIA.

Is sold everywhere by Druggists and Agents. Price reduced from \$2.50 to \$1.50 per 8 oz. Bottle (concentrated form). NOTE.—Eight ounces, when diluted, make one gallon of Royal Germetuer.

BE • SURE • TO • GET • THE • RED, • WHITE • AND • BLUE • LABEL!

Beware of Imitations, which always follow First-class Remedies.

Dealers handling, or desiring to handle, this medicine will find it to their interest to order of or correspond with

A. E. JORDAN,
Agent King's Royal Germetuer, RALEIGH, N. C.
